

Helping children master
the art of growing up

In an ideal classroom environment, what would your students hear, say, feel, do, see and learn?

Hear	
Say	
Feel	
Do	
See	
Learn	

Questions to keep in mind:

- If you had a magic wand, what would you wish your students had in your classroom?
- What would you need to do to make your students classroom experience a 5/5? a 6/5? a 10/5?

Based on your empathy map, build a set of SMART goals for the coming school year.
(SMART: specific, measurable, achievable, results-focused, and timebound)
